

5 REASONS TO TRY **ALL-BOND** **UNIVERSAL**[®]

Light-Cured Dental Adhesive

Rx Only

1 **Compatible**

Compatible with all light-, self-, and dual-cured resin composite and cement materials for all direct and indirect procedures.

2 **Versatile**

Its chemistry offers the flexibility to either total-, self-, or selective-etch.

3 **Durable**

Unique chemistry allows for the adhesive layer to become hydrophobic after polymerization, which enhances durability over time.

4 **Convenient**

No separate activator bottle is required.

5 **Peace-of-Mind**

Low film thickness (less than 10 microns) ensures proper fit of indirect restorations.
